Title:

Comments: Having e-bikes has huge implications for the wildlife and Wilderness. E-bikes will ruin the wildlands, wildlife and the Wilderness. E-bikes will displace the wildlife. e-bikes are more nosier then bicyclists, horseback riding and hikers. E-bikes must travel only where motor vehicles are allowed. E-bikes startle and disturb wildlife over far greater distances. e-bikes will increasingly trespass into Wilderness and other protected areas with no consequences. This illegal use will degrade the wild character of these lands The Forest Service should withdraw this proposal. Please no #-bikes allowed.
