Last name: Stieger

Organization:

Title:

Comments: I am a hiker, man biker and e-bike user and see no reason to allow e-bikes on non-motorized trails on National Forest lands. There are more trail miles open to motorized used than non-motorized trails. When looking for a non-motorized experience I don't want to have to go into a Wilderness area.

Because of the speed of the e-bikes this change could cause more disruption to wildlife than hiking groups.

Please keep e-bikes on motorized trails.

Thank you,

Patti Stieger
