Comments: I'm not in favor of the Forest Service's proposed rule to open up my National Forest lands to additional e-bike use because:

E-bikes are motor vehicles & should be used only where motor vehicles are allowed.

E-bikes will disturb wildlife over larger areas because of their speed. They will also disturb other nonmotorized trail users like hikers, horseback riders, and bicyclists.

This proposed rule is drastic & should trigger an environmental impact statement (EIS) under the National Environmental Policy Act (NEPA) to be done.

The proposed rule is not in line with the Forest Service's Travel Management Rule (36 CFR 212 et seq) & thus should not be implemented.

Please throw this rule out the window. Thank you.

The Forest Service should withdraw this proposal.
