First name: franc

Last name: mangles

Organization:

Title:

Comments: As a retired USFS WL bio and range officer, i determine that e-bikes, vehicles, and mtn bikes of all sorts have NO place on NF trails. Not wilderness, not even back country, nowhere. Too much damage and extra expensive upkeep that is better spent elsewhere. Too much extra disturbance, and that includes range permittees and cowboys. I can't hike in anymore, but its nice to know an ecological system has a better chance, a comfort to know it's there.
