Comments: I oppose the Forest Service's proposed rule to open up my National Forest lands to additional e-bike use. It would make more sense to treat e-bikes as motor vehicles since they are becoming as fast and as powerful as other motorized vehicles such as scooters, mopeds, and even some motorcycles.

Because there is almost no enforcement now for trespass, illegal off-trail riding, and illegal trail development, allowing e-bikes will likely further degrade the wild character of these lands and should not be encouraged as this rule will do.

The Forest Service should withdraw this proposal.
