Title:

Comments: My wife and I hike in the New Mexico mountains about three times per week. We go for the beauty, the solitude, and the exercise. If a trail is too difficult for us, we do not use it. We would never use an E-bike as it would eliminate the beauty, solitude, and exercise. We do not want anyone else to use one in our mountains for the same reason. E-bike belong on the street along with motor bike, and motorcycles.
