First name: Patience

Last name: Dougherty

Organization:

Title:

Comments: AS a USA citizen and co-owner of the national parks, I strongly object to the use of e-bikes within the boundaries of national forests. Since they are motorized vehicles, they have no place in the wilderness, either on or off designated trails. The impact on wildlife would be disastrous, and the safety of hikers and equestrians would be in jeopardy. Please do not allow ANY motorized vehicles, whether gasoline or battery operated, in our national forests.

Thank you! Patience B. Dougherty
