First name: Julie

Last name: Martin

Organization:

Title:

Comments: Mankind has destroyed enough land, waters and animals already. It is time we finally take a stand to stop destruction and allowing bikes, motors, drilling, fracking, hunting, fishing or whatever it may end up being from going in to National Parks, National Lands and protected areas. We need to continue to protect wildlife from pollutions and excessive killings. To many have fallen to the wayside and into extinction even in our lifetimes. We need to protect more and destroy less of all involved.
