Comments: As a person that uses National Forest Service land hiking and horse back riding I'm concerned about the proposed rule to allow E Bikes on trails otherwise not open to motorized vehicles. E bikes should continue to be treated as motorized vehicles instead of bicycles. The proposed rule should undergo a formal environmental impact statement as the impact of E bikes would be significant. Because E bikes are quiet they could travel further into the back country and disturb wildlife, hikers and equestrians. Please withdraw this proposed rule.

Thank you, Al Anderson
