First name: Betsy

Last name: Levin

Organization:

Title:

Comments: I would urge our National Forest leaders to NOT allow e-bikes or any kind of motorized traffic on our sacred National Forest land. The serene beauty of our land must be preserved. Motorized vehicles will cause danger to our hikers, equestrians, our regular bike riders, people hiking with dogs, and older hiking enthusiasts. People and animals will be endangered. You have only to visit areas where motorized vehicles are permitted to see the negative impact.
