First name: Joan

Last name: McGrath

Organization:

Title:

Comments: As an e-bike owner I am so happy I can continue to bike with other people. Other owners of e-bikes in the group ride between 12-15 mph. We are in our 70's and 80's and enjoy the companionship and exercise. We are slower than racers who can ride 25 mph. If there are e-bikes that go 55mph they should be on a highway, not on bike trails.
