Comments: E-bikes don't belong on the trails anymore than motorcycles and should be limited to small use areas like four wheelers and motorcycles. I love bike riding, and hiking and have also had many motorcycles and a jeep I take four wheeling but they belong in restricted areas. We have to stop destroying our public lands. If you want to go hike, or pedal a bike. If you want to do the rest it should be in limited areas. Just because e-bikes are not noisy they still shouldn't be allowed!! In our area they don't allow horses on the trails because they are so "destructive" but you want to allow e-bikes?????
