Comments: Please do not allow this project to proceed, the salmon river is one of America's most amazing place. I have been a visitor and outdoor enthusiast there several times and it is one of the most memorable places and moments of oh life. You can not replace places like this. The natural beauty is worth more far more than any mineral locked up in ores beneath it!

Keep the citizens safe and their resources safe! Keep Idaho beautiful, keep the salmon river one of America's best travel destinations!
