Comments: I am against the use of e-bikes as well as mountain bikes in our National Forests as well as our local parks. I am a senior & walk my two elderly dogs every day of the year on local trails. I have found that young people set up jumps for their biking activity & understand the fun & thrills that this gives them. However, it also poses a serious safety issue for me & my dogs.

E-bikes & mountain bike usage should be limited to special use trails & areas for the safety & enjoyment of all ages & users.
