First name: Carl B. and Pamela

Last name: Lechner

Organization:

Title:

Comments: Advancements in e-bike technology, rapid growth in popularity of this recreational activity and presumed opportunities for e-bike use on federal lands are NOT reasons for federal agencies such as the USDA Forest Service, the Bureau of Land Management and the National Park Service to examine current authority, regulations, and policy governing the use of e-bikes. Federal land management agencies should not degrade existing recreational opportunities on our public lands by expanding access for e-bikes use.
