Comments: I am against the use of E-bikes on forest trails unless you are handicapped. This is not fair to hunters and fisherman horsemen hikers who sweat to get to there destination. They should be considered a motor vehicle because they are. You can not argue that. Keep them to roads and trails in motor use areas unless you have a handicap placard to verify your handicap. By allowing E-bike use you open the door to new E technology. E-skis, E-quad runners, E-boats, E-snowmobiles, E-hiking boots. You get the idea. Be carful because by allowing this you open the door back up to 2-cycle engines everywhere.
