Comments: I am writing to express my strong opposition to E Bike on non-motorized areas of the National Forest. You can call an ebike whatever you want, but if it walks like a duck and talks like a duck, it's probably a duck. If you are on a vehicle that either doesn't require you to pedal, or aids in your pedaling, it's a motorized vehicle. More, Cache Creek is already a heavily used area and the use has increased greatly in the last 10yrs. If you allow E Bikes in that area, it will change the character of the whole place and degrade the experience for everyone.
