Comments: I come to these places for peace and quiet and solitude,like john muir if you let this happen we will then start the erosion! people can get their exercise just like the rest of us hike i am in my 60s and I walk everywhere thats how I stay in good shape let the wild be wild and let the animals have solitude too. if people want to ride there motorized bikes let them do it in the city and it will be less crowds in nature that we can all enjoy. you already screwed up parts of the peace by letting snowmobiles in which iam against too.
