Title:

Comments: Please NO E-BIKES on or in our national forests and parks! There are plenty of places they can go but allowing them in our special places where I hike is not something I want. The D-Bikes make noise unlike a regular mountain bike that is allowed in the parks and national forests. The E-bikes industry wants to sell more bikes so they have NO real love for the quietness of our national parks and national forests. E-Bikes belong on the street not in our forests!

Please DO NOT allow E-bikes in our national parks, forests and even the state parks. It would be a big mistake!
