Comments: Hi,

Since E-bikes have motors and make sound, please allow e-bikes only on trails and roads open to motor use.

Please do not allow e-bike in Wilderness areas, wilderness study areas or other natural areas off limits to motor vehicles.

Wildlife needs as much land without human impact as possible for shelter, food, clean water and clean air.

Wildlife need land without motors and noise pollution as do hikers and campers in backcountry and wilderness areas.

Thank you. E. W.
