Comments: I am sorry, but just think cell phones in cars when you read my position to follow here.

It matters NOT what class of "ebike" discussed, NONE of them should be allowed on non-motorized trails period. Any effort to do anything else will simply lead to confusion and abuse of the privilege which leads to confrontation and loss of access.

While I appreciate that ebikes may allow some who otherwise might not be able to experience trails from a bicycle seat, motorized is motorized no matter how "little" assist is there.

Respectfully,

Ed Bemis
