Comments: I am writing in support of Class 1 eMTBs on Forest Service trails. eMTBs allow many people to enjoy USFS trails safely. Maintaining non-motorized designation for the trails in question is very important, as Class 1 eMTBs are not reasonably categorized in the same field as other more powerful motorized vehicles (motorcycles, RAZRs, etc). Addition of Class 1 eMTBs will allow healthy, noise-free recreation in USFS areas that will improve the health and enjoyment of users. Thanks!
