Comments: Hi,

Please allow more access to non motorized and non-E-Bikes mountain biking. E-bikes are motorized bikes and should not be allowed access where non motorized mountain bikes have access. Also increase funding for Mt Bike only directional single track trails. Finally, yielding should be done so it does not put all the onus on one user group. Yielding should be done by all users the same. For example all uphill traffic yields to downhill traffic no matter who the user of the trail is. Or vise versa. But it is much easier for an uphill user to yield to a downhill user, especially if the downhill user is a mt bike.
