Comments: Thank you for addressing eBikes on public US Forest Service lands. I applaud your recognition of the three different classes of eBikes and would ask that the final directive reconsider how to allow class 1 eMTBs on select non-motorized trails while retaining a trail's non-motorized status, similar to the recent Bureau of Land Management final rule.

Class 1 eBikes can and should be allowed on select non-motorized trails at the local land manager's discretion with local public user group input, but this should not open the can of worms of allowing all motorized travel (ie; Class 2 and 3 ebikes and motorcycles) on these same trails.
