Comments: Howdy, I'm a 71 year old mountain biker. I have been Mt. biking for 38 years. I raced Mt. bikes for about 10 years. I won the Washington State championship in my age group once. I got my first e-Mt. bike 4 years ago. I really enjoy climbing like I did in my 50's I can keep up with much younger riders, It makes my feel younger. I saw that there is a e-Mt bike world championship, I would love to train and see if I could win my age group again. I do not understand why anyone would not want to get more old folks back out on their bikes and riding again. I also don't understand why a person should be able to ride and-Mt. bike, just so long that it's a pedal assist and not an electric motor cycle.
