Comments: I support Class 1 e bikes being allowed on dirt trails currently opened to bicycles.

I have been mountain biking since 1987. In the last 2 years I have ridden over 6,000 miles on an eMTB. I have not encountered any of the problems/issues that are said to accompany ebike use on trails. Entirely contrived and overblown based on my direct experience.

Thanks for your consideration of this very important access issue.
