Comments: As an avid mountain biker, I would like to ask that all motorized vehicles, including electric "bicycles" of any sort, be limited to trails where motorized vehicles are authorized. Routes designated for human-only power should remain off limits to e-bikes and other motor vehicles. I am dismayed at this attempt to open bicycle routes to motorized vehicles. I'm actually surprised that there is any discussion... e-bikes have motors; it does not really matter whether the motor is electric or gas. Thank you.
