Comments: As a non-ebike riding mountain biker, I believe allowing anyone access via ebike on trails is a bad idea. However, I think there is a great spot for compromise. I believe older riders, and disabled riders should be allowed to have the same access as able bodied and younger riders. This is a sport we all love because of the freedom we enjoy to explore and challenge ourselves. This barrier is too high for many disabled and older people. I would propose setting a minimum age(say 55 for example) and disability status as grounds for having permission to ride ebikes in this space. That would do a lot to even the playing field so we could all enjoy these beautiful areas that belong to us.
