Comments: I am 67 years old and if I did not buy my mountain ebike I would be by my self and my wife said for me to ride with some one well guess what am older. Now my bike Allows me to ride with everyone and live my life. Doing what I love to do mountain biking. I Ride with people who Can peddle just as fast like a Ebike . I do not tear the ground up like a motorcycle because I am a mountain bike peddler. With bike assist because I cannot keep up with everyone. Should Pay for ebike license The money goes towards helping the trails. I can do that
????????????????
