Title:

Comments: I am 71 years young. I no longer ride with the intensity that I did even 5 years ago. I like the idea of a eMBT because it would allow me to enjoy the trails I so dearly love. I can see the problem if people get out there and tear up the trails with high speed. I think most Riders would obey riding rules and ride responsibly. I am in favor of allowing eMBT 'S on non motorized trails. Maybe you could put a age limit on e bikes.

Rick
