First name: Mike

Last name: Pickens

Organization: Team Mtbmonkey

Title:

Comments: I think E-bikes are great for the sport as well as the mtb community. I personally ride a standard mtb however, I know people with disabilities that are only able to ride cause of an e-bike. I'm not getting any younger and will be purchasing one myself in the future. All the regulations and restrictions are a bit overkill for the e-bikes. I think we'll end up pushing people out of the sport if we keep on with the red tape!
