Comments: Regarding the proposals on FSM 7700 and 7710 and the use of electric bicycles (e-bikes), please consider how to allow class 1 eMTBs on select non-motorized trails while retaining a trail's non-motorized status.

I help coach a small team of junior high school children with the National Interscholastic Cycling Association (NICA) and one of the coaches is a grandfather with an eMTB and he wouldn't be able to participate with his grandchildren without the extra assistance. We all appreciate the new technology of his bicycle and I was alarmed to see that anyone would consider it the same as a gas-powered motorbike.

I hope you'll consider keeping a niche available for us older people to ride with our younger generations.
