Comments: As a class 1 e-MTB user, I appreciate the challenge these new technologies face. Class 1 e-bikes allow an incredible exploration & utilization of our natural terrain without increasing impact or danger, provided users are respectful to other trail users as non-electric mountain bikers should be. I agree that allowing class 1 e-MTBs on "nonmotorized" trails is most appropriate. Locally where I ride, Mountain bikers the by far the main energy, advocacy & labor in actual sustainable trail maintenance and development.

Thank you
