First name: Kent

Last name: Blossom

Organization:

Title:

Comments: I support trail access and shared use for Class 1 eMTBs providing access is not lost or impeded for traditional mountain bikes. Class 1 eMTBs should be managed independently from traditional mountain bikes and Class 2 and 3 eMTBs. Land managers should develop separate regulations, and Class 2 and 3 eMTBs should be prohibited from natural surface non-motorized trails.
