Comments: I want to support mountain bikes and electric assisted mountain bikes on all non motorized trails and paths. Being 60 years old and having health issues keeps me from riding a regular bicycle but I am able to ride my e-bike. I am and always have been an outdoor enthusiast and since my illness had not been able to get out the wild like I used to. My e-bike brings this world back to me and being able to access state and national lands is very important.

Thank you very much for your consideration.
