Comments: Thank you for giving me the opportunity to comment on this important issue. I understand the complexity of the work related to this project and appreciate everyone's efforts in working towards a solution that best manages our natural resources so everyone can use them. I believe that all ebikes should be considered motorized and have trails designated for them. I believe that it would be detrimental to have any ebikes on designated non-motorized trails and this should not be allowed.

Best Regards, Mark Seevers
