First name: Linda

Last name: Mazurski

Organization:

Title:

Comments: Not only do these bikes denude the landscape, they attract mayhem & mischief opportunities late into the night. Persons who live near public forests listen to unending & unnerving revs of motorbikes throughout the night. Also, motorized bikes of all sorts help careless people into bravely shooting & "hunting" off of them in the dark. This jeopardizes wildlife & nearby humans. The bikes make for easy fleeing.
