Comments: No e-bikes should be allowed on non-motorized trails.

No non-motorized trails should be recategorized as motorized trails.

E-bikes have motors-all classes of them. Non-motorized trails are reserved for non-motorized vehicles-and all of them should stay that way. There are very good reasons why motorized vehicles have been banned from non-motorized trails (speed concerns, safety, erosion, noise, pollution-e-bike batteries still have to be charged and replaced and disposed of-to name a few). None of this has changed. E-bikes have no place on non-motorized trails, and our hard won trails should not be recategorized as "motorized" to facilitate e-bikes.
