First name: Reed

Last name: Hutton

Organization: Jackson Hole Kayak Club

Title: Executive Director

Comments: To whom it may concern,

On behalf of the Jackson Hole Kayak Club, North America's premier youth whitewater kayaking organization, I encourage you to extend the Stibnite Mine EIS comment period so we may continue to denounce and voice our criticisms of the proposed Midas Gold Stibnite mine. To many, the South Salmon watershed and surrounding wilderness is a special place, one that preserves the wildness of nature and her glory. The gold mine seems outdated, is organized and promoted by foreign interests, and seems antithetical to the grandeur of central Idaho's most pristine resources: rivers and wilderness that rivals that of the rest of the world. Please consider extending the comment period. This mine will have long-lasting impacts that will adversely impact Idaho's biodiversity and downstream communities.
