Title:

Comments: I would like to encourage all who are involved to consider in decision making that class 1 e-assist mountain bikes are drastically different from class 2 and 3 e-bikes. As a seasoned rider I must use a class 1 e-bike to be able to ride with my younger family members (grand children and children) on the natural trails that mtn. biking allows us to enjoy.

I assure you as an avid biker that class 1 e-bikes are a help for many of us to continue to ride as we age and consequently enjoy the trails. This help is not in the form of torques that would damage trails nor in speeds that would offer undue danger to other riders or pedestrians.

I appreciate that decisions must be made in categorizing bikes. I simply and humbly wish to encourage that decisions made differentiate between class one e-bikes and classes 2 and 3 for trail usage.

Sincerely,

David Clark,

An aging but avid rider!
