Comments: Wilderness is meant to keep habitat wild . Foot traffic and horse traffic is most appropriate . I cannot imagine 55 mph vehicles being in synch with wild places. With such transport, the wild will become a catacomb new trails going everywhere. The whole balance of these areas will be raped and pillaged with wheel tracks. Please do not allow this to happen . We have so few wild places left on this planet. Those that we do have are sacred . Just let them be sans modern conveyances.
