Comments: To whom it may concern,

I believe e-bikes should not be allowed on national forest lands. I am an avid mountain biker that uses the Tonto National Forest and it's many amazing trails. I have been almost in several collisions with out of control e bikes while mountain biking. Bikes with motors should stay off hiking/biking trails. They need to stay on off-road trails and atv specific trails to avoid collisions with other hikers/mountain bikers. Dirt bikes and ATV's are not allowed on hiking trails so it doesn't make sense to allow e bikes with motors on them. Please feel free to contact me if you have any questions.

Thank you!
