Comments: I am a long time MTB rider. Last year I was diagnosed with myotonic dystrophy, a form of muscular dystrophy. I am no longer able to ride like I used to, and am about to purchase an eMTB so that I can continue to enjoy the trails I have loved for so long. This is truly my joy in life and the eMTB will allow me to continue my passion in the places I have come to love. Please allow at least class 1 eMTBs on all of your trails. If access is removed, I will be denied enjoyment of these trails due to my medical condition, which is no fault of my own. I beg of you to understand the impact of this decision on people with physical disabilities like me. Thank you for your consideration.
