First name: ELIZABETH

Last name: Arendt-Delgado

Organization:

Title:

Comments: Please do not allow ebikes on these lands. There are already close to 60k miles of trails that allow motorized bikes. The impact to the trails, the forest and wildlife will be permanent. The enjoyment of being in the forest on the trails, and hearing the sounds of the forest, will be lost. Safety is another concern, as many people do not practice safety around hikers when they are on a motorized trail.

Thank you

Respectfully, Elizabeth
