Title:

Comments: 1) I agree with classifying and managing class 1, class 2 and class 3 eMTBs separately from each other. 2) I would agree with prohibiting class 2 and class 3 eMTBs on natural surface, currently non-motorized trails. 3) I would agree with and encourage allowing access of class 1 eMTBs to trails currently restricted to motorized vehicles and currently rideable by human powered non-motorized MTBs, subject to NEPA review and local considerations.
