Comments: I have been riding mtn bikes for the last 20+ years and I am very active in my local mtn bike club building and maintaining our trail system within state park property. I along with a large majority of riders believe that allowing ebikes onto trails except in cases of handicap needs is a huge mistake. There is too much potential for recklessness and damage to the trails system and environment. Our trail system is a prefect example in the fact that it is entirely volunteer based. I would be hard pressed to donate all the time that I do to build trails if I had to go back and keep repairing the trails damaged due to ebikes.

thank you
