Comments: For 50 years I have been riding single track trails. I am now 75. In August I was enjoying a ride on sky mountain in aspen. I was given a \$100 ticket by a county ranger. My bike is a class one ebike. I am very lucky to still be able to enjoy the single track trails. People my age should be encouraged to stay in the game. At a minimum open the trails up riders over 70 and see how it goes. I find the vast majority of other riders very supportive those who are not are simply selfish. Thanks.
