Comments: To whom it may concern,

As a hiker, biker, and trail maintenance volunteer I am very affected by the pending ruling on how E-bikes are designated. On volunteer days class 1 E-bike use is very helpful to expedite trail clearing on non-motorized trails. I hope these class 1 E-bikes can be given an exception to continue access on non-motorized trails. That would continue to contribute to good public access on our valuable non-motorized trails.

Thank you!
