Comments: I agree with and support proposed changes to allow EMTBs fitting description in proposal. However, why are you considering a separate category of EMTB only trails? I ride an EMTB, Specialized Levo SL. Separate EMTB only trails are unnecessary based on my experience. They just allow older folks like me and others who due to DNA, do not have hearts and lungs that work as supremely as those possessed by all the elite athletes opposing EMTBs. We dont need segregated trails
