Comments: Please be careful regarding regulations regarding emtbs on non-motorized trails. Class 1 electric mountain bikes, that is, pedal assist only, with speed limitation to 20 mph, should be allowed ANYWHERE mountain bikes are currently allowed. All other classes of e-bikes should be classified as motorized and prohibited wherever motors are currently prohibited. Please don't make this more complicated than it has to be, and follow these recommended decisions which given marketplace trends are inevitable in any case.
